SDITO LAB AASIGNMENTS

Assignment no :- 01 CREATE AN ACCOUNT IN AWS AND CONFIGURE A BUDGET SOLUTION.

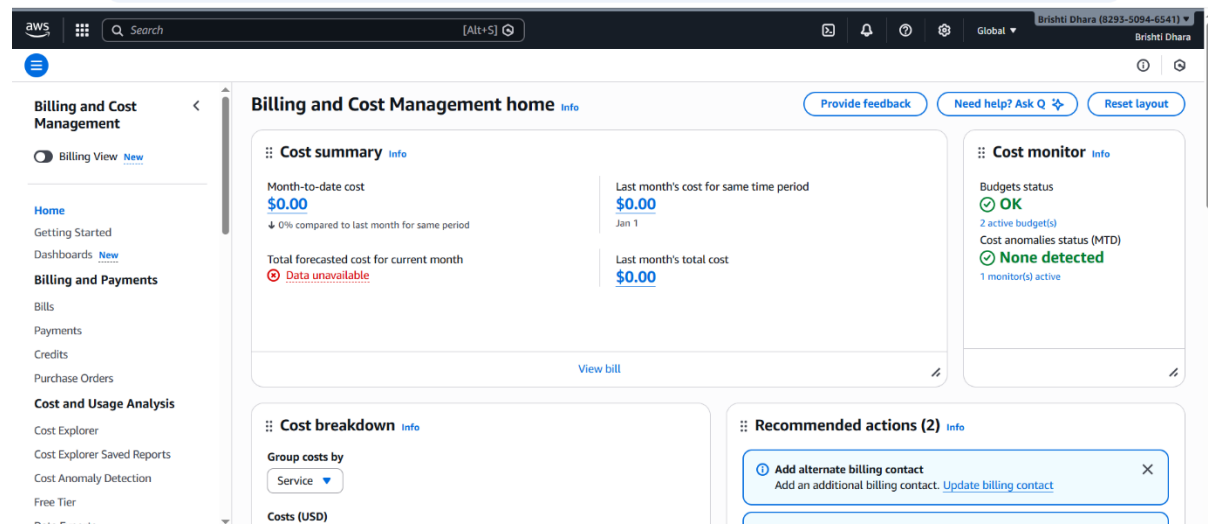

Step-1: At first open the aws cosole.

Step-2: Then tap on the top right corner account section

Step-3: Then open the “Billing and cost Management”.

Step-4: After that go to “Budgets and Planning” form the right side top down search Menu bar. Then “click on Budgets”.

Step-5: Now click on “create Budget”.

The screenshot shows the AWS Billing and Cost Management console. The left sidebar contains navigation links for Billing and Cost Management, Billing View, Home, Getting Started, Dashboards, Billing and Payments, and Cost and Usage Analysis. The main content area displays a table of budgets. The table has columns for Name, Thresholds, Health status, Billing View, Budget, Amount, and Forecast. Two budgets are listed: 'budget1' and 'My Zero-Spend Budget', both with OK thresholds and Healthy status. A 'Create budget' button is visible in the top right corner.

Name	Thresholds	Health status	Billing View	Budget	Amount	Forecast
budget1	OK	Healthy	Primary View	\$1.00	\$0.00	-
My Zero-Spend Budget	OK	Healthy	Primary View	\$1.00	\$0.00	-

Step-6: Then, there are two options are available “used template”, “customize”. So We need to choose second one.

The screenshot shows the 'Create budget' wizard in the AWS Billing and Cost Management console. The wizard is in the 'Choose budget type' step. The 'Budget setup' section offers two options: 'Use a template (simplified)' and 'Customize (advanced)'. The 'Customize (advanced)' option is selected. The 'Billing View - optional' section is also visible. The 'Budget types' section offers three options: 'Cost budget - Recommended' (selected), 'Usage budget', and 'Savings Plans budget'. The 'Cost budget - Recommended' option is selected.

Budget setup

- ☐ Use a template (simplified)
- ☒ Customize (advanced)

Billing View - optional

Select a billing view you want to create this data export for. This will not be editable after create. If no view is selected, this export will be created for your account data (primary view).

Budget types

- ☒ Cost budget - Recommended
- ☐ Usage budget
- ☐ Savings Plans budget

Step-7: Then all the other field remain same. And press “next”

The screenshot shows the 'Create budget' wizard in the AWS Billing and Cost Management console. The wizard is in the 'Choose budget type' step. The 'Budget setup' section offers two options: 'Use a template (simplified)' and 'Customize (advanced)'. The 'Customize (advanced)' option is selected. The 'Billing View - optional' section is also visible. The 'Budget types' section offers three options: 'Cost budget - Recommended' (selected), 'Usage budget', and 'Savings Plans budget'. The 'Cost budget - Recommended' option is selected. The 'Next' button is visible in the bottom right corner.

Budget types

- ☒ Cost budget - Recommended
- ☐ Usage budget
- ☐ Savings Plans budget

Next

Step-8: In this page we need to set our “Budget name”, “Period”, “Budget renewal type” manually.

Billing and Cost Management

Details

Budget name
Provide a descriptive name for this budget.
budget3
Names must be between 1-100 characters.

Set budget amount

Period
Monthly

Budget renewal type
☒ Recurring budget
Recurring budgets renew on the first day of every monthly billing period.
☐ Expiring budget
Expiring monthly budgets stop renewing at the end of the selected expiration month.

Start month
Feb 2026

Budgeting method
Fixed
Create a budget that tracks against a single monthly budgeted amount.

Cost Data
Feb 2025 - Feb 2026 (MTD) | Unblended costs

Actual cost
View in AWS Cost Explorer

Alerts
No alerts configured.

Step-9: Then set a amount and press next.

Billing and Cost Management

Enter your budgeted amount (\$)
Last month's cost: \$0.00
1

Budget scope
Add filtering and use advanced options to narrow the set of cost information tracked as part of this budget

Scope options
☒ All AWS services (Recommended)
Track any cost incurred from any service for this account as part of the budget scope.
☐ Filter specific AWS cost dimensions
Select specific dimensions to budget against. For example, you can select the specific service "EC2" to budget against.

Advanced options
Charge types are now located under Scope options with other filter dimensions. To configure charge types, choose Filter specific AWS cost dimensions, then select Charge type from the Dimension dropdown list.

Aggregate costs by
Unblended costs

Tags (optional)
A tag is a label you assign to an AWS resource. Each tag consists of a key and value. You can use tags to control access to this budget with IAM policies.
No tags associated with the resource.
Add new tag
You can add up to 50 tags.

View in AWS Cost Explorer

Alerts
No alerts configured.

Cancel Previous Next

Step-10: Then we need to “ add an alert”.

The screenshot shows the AWS Budgets console in the 'Create budget' wizard, Step 2: Configure alerts. The left sidebar shows the navigation menu. The main content area is divided into three sections: 'Why create budget alerts?', 'How to get started?', and 'Budget amount'. The 'Budget amount' section shows a budgeted amount of \$1.00. Below this, there is a section for 'No alert thresholds created' with a button to 'Add an alert threshold'. The right sidebar shows 'Cost Data' and 'Alerts'.

Why create budget alerts?
In order to be notified on the state of your budget, you can create up to 5 different alerts based on your budgeted amount. For example, create an alert to notify you when you have reached 75% of your budgeted amount.

How to get started?
Start by defining alert thresholds, then specify alert recipients and how you would like them to be notified. Alerts can be sent via email, AWS SNS, and AWS Chatbot.

Budget amount
Your budgeted amount: **\$1.00**
To change your budgeted amount, go back to step 2.

No alert thresholds created.

Cost Data
Feb 2025 - Feb 2026 (MTD) | Unblended costs

Alerts
No alerts configured.

Step-11: in the alert page we need to set a “Threshold” and “recipient mail”. then press Next.

The screenshot shows the AWS Budgets console in the 'Create budget' wizard, Step 3: Configure alerts. The left sidebar shows the navigation menu. The main content area is divided into three sections: 'Summary', 'Notification preferences', and 'Email recipients'. The 'Email recipients' section shows a list of email addresses. The right sidebar shows 'Budget preview' and 'Alerts'.

Summary: When your actual cost is greater than 50.00% (\$0.50) of your budgeted amount (\$1.00), the alert threshold will be exceeded.

Notification preferences
Select one or more notification preferences to receive alerts.

Email recipients
Specify the email recipients you want to notify when the threshold has exceeded.
